

Smart Work-From-Home Décor

Whether you work from home full time or as part of a hybrid model like **28.2% of American full-time employees**, it pays to upgrade your home set-up with the latest smart technology.

SMART LIGHTING SYSTEM

Adjust the color and intensity of your lighting to reduce eye strain and create an optimal, productive work environment.

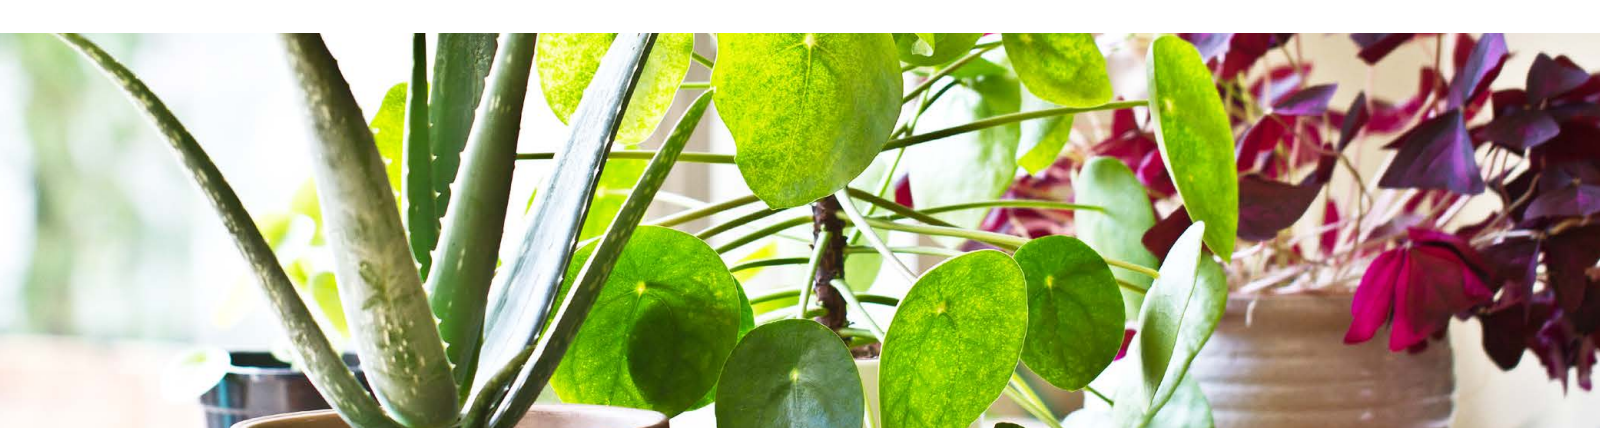

WIRELESS CHARGING STATION

Stay available all day with a convenient station to keep devices charged and your workspace clutter-free.

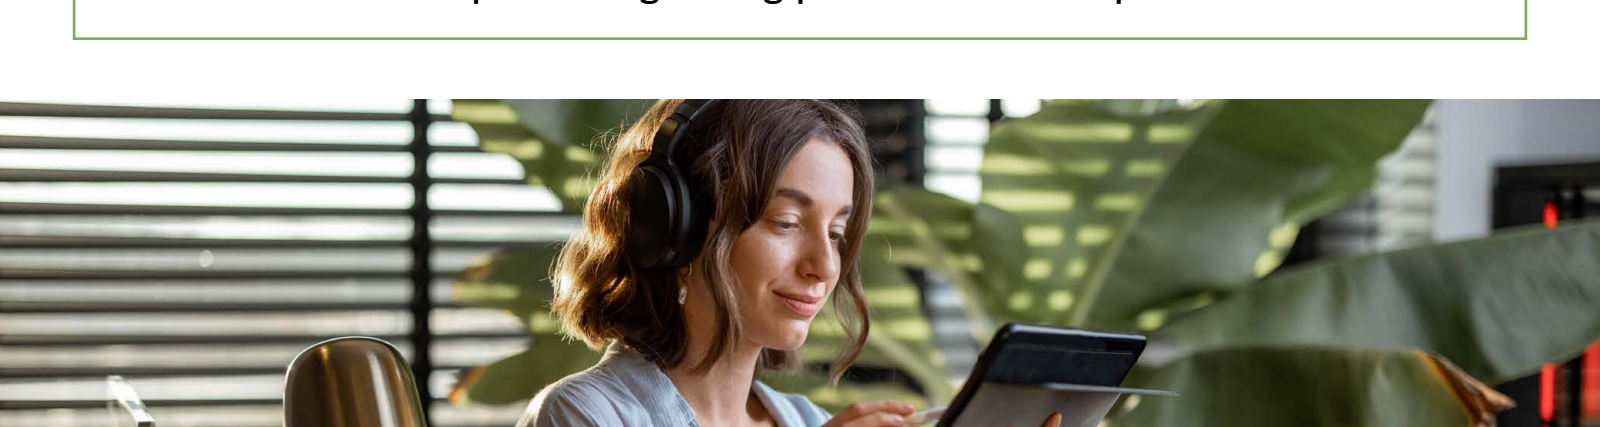

AUTOMATED AIR PURIFIER

Remove allergens and harmful particles to improve your indoor air quality and focus on the task at hand.

SMART GROW LIGHTS

Add some mood-boosting greenery using a decorative smart light or frame that provides growing plants with full-spectrum LEDs.

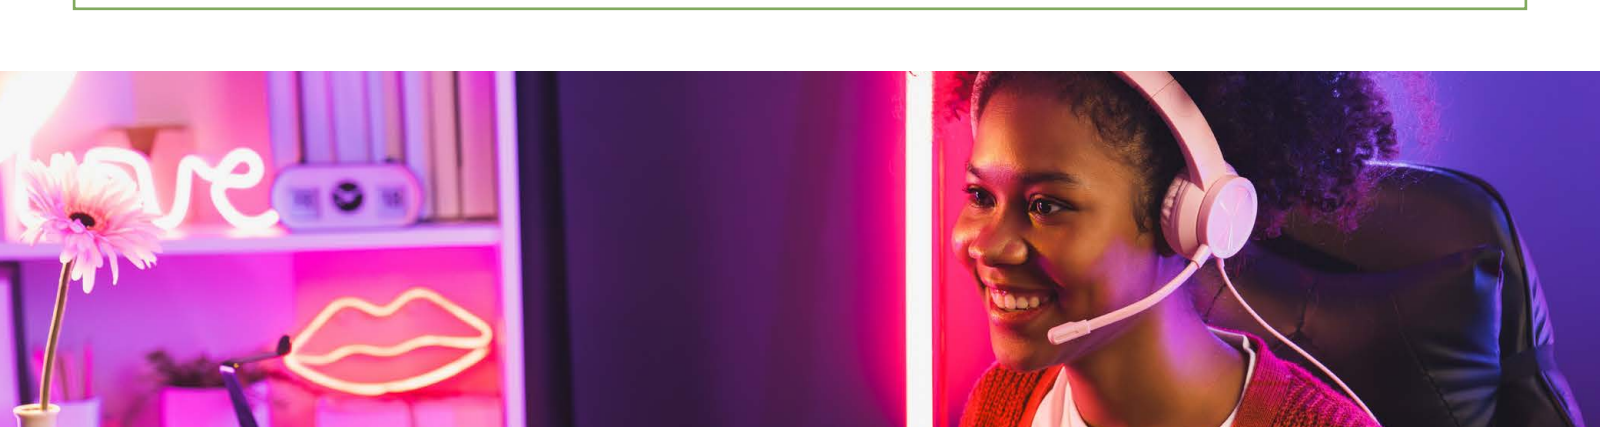

AUTOMATED WINDOW BLINDS

Control the amount of natural light in the room — and on your screen — with the touch of an app.

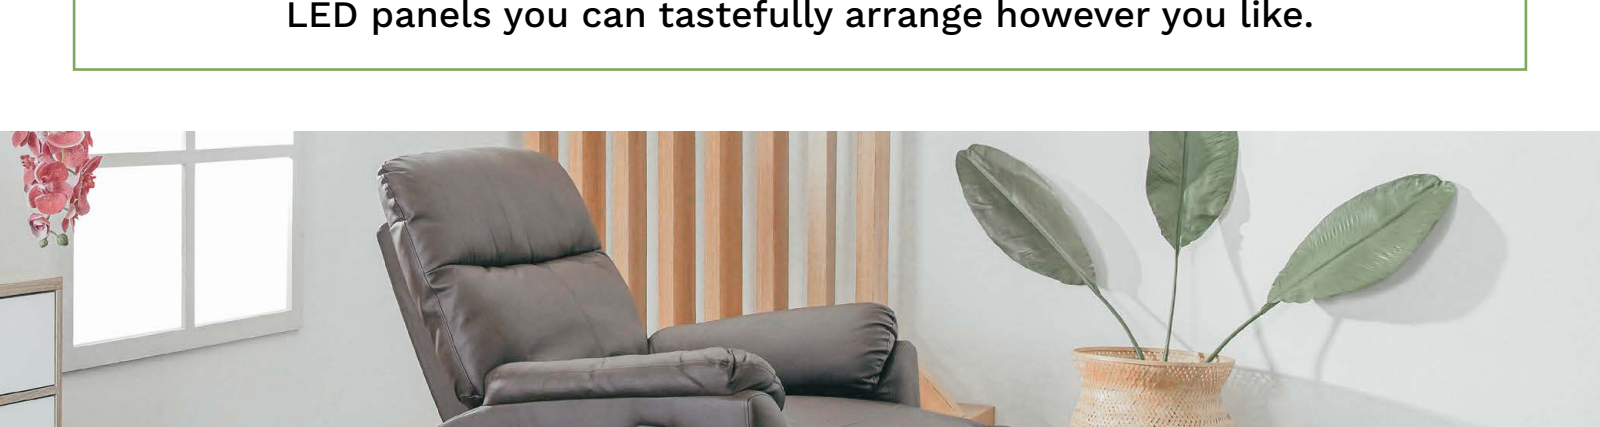

MULTIPURPOSE PRINTER

Keep pace with all your office work by utilizing a stylish smart machine that lets you print, scan and copy documents from home.

LED LIGHTING PANELS

Create a calming ambiance with a set of chic, music-connected LED panels you can tastefully arrange however you like.

RECLINER WITH USB CHARGING PORTS

Take a load off while still on the clock in your own comfy recliner or sofa featuring USB charging ports and LED-lit cupholders.

Sofas&Sectionals
STYLE. SELECTION. YOUR HOME
